

# Dongfang Zhao, Ph.D.

Address: University of Washington, Box 352350, 185 E Stevens Way NE, Seattle, WA 98195

Email: [dzhao@cs.washington.edu](mailto:dzhao@cs.washington.edu)

Web: [homes.cs.washington.edu/~dzhao](http://homes.cs.washington.edu/~dzhao)

## Professional Preparation

|                                           |                           |      |
|-------------------------------------------|---------------------------|------|
| University of Washington, Seattle         | Computer Science, PostDoc | 2017 |
| Illinois Institute of Technology, Chicago | Computer Science, PhD     | 2015 |
| Emory University, Atlanta, GA             | Computer Science, MS      | 2008 |

## Employment

|              |                                                                     |
|--------------|---------------------------------------------------------------------|
| 2023–present | Assistant Professor, University of Washington                       |
| 2018–2023    | Visiting Professor, University of California, Davis (UC Davis)      |
| 2018–2023    | Assistant Professor, University of Nevada, Reno                     |
| 2015         | Research Intern, IBM Almaden Research Center, San Jose, CA          |
| 2014         | Research Intern, Argonne National Laboratory, Chicago, IL           |
| 2013         | Research Intern, Pacific Northwest National Laboratory, Seattle, WA |
| 2009–2011    | Software Developer, Epic Systems Corporation, Madison, WI           |

## Selected Awards

|      |                                                                                                                                                                          |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2022 | Federal Research Grant, UNR PI, NSF 2112345, \$255,916<br>“A DLT Machine Learning Platform for Blockchain Warehousing”                                                   |
| 2020 | Federal Research Grant, UNR PI, DOE SC0020455, \$200,000<br>“HPChain: Energy-Efficient Scalable Blockchains for HPC Systems”                                             |
| 2019 | Best Paper Award, International Conference on Cloud Computing<br>“BlockLite: Toward Accurate and Efficient Emulation of Public Blockchains in the Cloud”                 |
| 2018 | Best Student Paper Award, IEEE International Conference on Cloud Computing<br>“Toward Cost-Effective Memory Scaling in Clouds: Symbiosis of Virtual and Physical Memory” |
| 2016 | Postdoctoral Fellowship, Sloan Foundation, \$155,000                                                                                                                     |

## Selected Services

|              |                      |                                                     |
|--------------|----------------------|-----------------------------------------------------|
| 2023–present | Associate Editor     | Journal of Big Data (Springer Nature)               |
| 2021–present | Editorial Board      | IEEE Transactions on Distributed & Parallel Systems |
| 2018–present | Grant Review Panels  | NSF CISE IIS, NSF CISE OAC, DOE ASCR                |
| 2024         | Search Committee     | One Assistant Professor of AI/Security              |
| 2023         | Search Committee     | One Associate Professor of Databases                |
| 2022         | Search Committee     | One Assistant Professor of Artificial Intelligence  |
| 2021         | Search Committee     | Two Assistant Professors of Cybersecurity           |
| 2019         | Organizing Committee | ACM International Middleware Conference, UC Davis   |

## Selected Publications

(**Dongfang Zhao** is the student's <sup>\*</sup>advisor, <sup>†</sup>thesis committee member, or <sup>‡</sup>postdoc co-author)
