

Dongfang Zhao, Ph.D.

Assistant Professor
Department of Computer Science and Engineering
University of Nevada, Reno

Office: WPEB 431
Email: dzhao@unr.edu
Web: <https://hpdic.github.io>

Status

Male, married, U.S. citizen

Research Areas

High-performance computing, databases, artificial intelligence, computer security

Professional Preparation

Northeastern University	B.Eng., Computer Science	2003
Katholieke Universiteit Leuven	M.Sc., Statistics	2005
Emory University	M.Sc., Computer Science	2008
Illinois Institute of Technology	Ph.D., Computer Science	2015
University of Washington	Postdoc, Computer Science	2017

Appointments

2017–Now	Assistant Professor of Computer Science, University of Nevada, Reno (UNR)
2018–Now	Lead Software Developer, Moka Blox LLC., Davis, California
2018–2020	Visiting Professor of Computer Science, University of California, Davis
2016–2017	Research Associate, University of Washington, Seattle
2015	Research Intern, IBM Almaden Research Center, San Jose, California
2014	Research Intern, Argonne National Laboratory, Chicago, Illinois
2013	Research Intern, Pacific Northwest National Laboratory, Seattle, Washington
2012–2015	Research Assistant, Illinois Institute of Technology, Chicago
2009–2011	Software Developer, Epic Systems, Madison, Wisconsin

Teaching

CS 705: Cryptography and Blockchain	University of Nevada, Reno	2023–now
CS 791: Distributed Computing	University of Nevada, Reno	2020–now
CS 457: Database Management Systems	University of Nevada, Reno	2018–now

Services

2021–Now	Editorial Review Board	IEEE Transactions on Distributed & Parallel Systems
2022	Grant Review Panels	National Science Foundation, CISE OAC, CISE IIS
2021	Faculty Search Committee	Department of Computer Science, UNR
2019	Organizing Committee	ACM/IFIP International Middleware Conference
2018	Grant Review Panel	U.S. Department of Energy, ASCR
2018	Grant Review Panel	National Science Foundation, CISE IIS

Awards

2022	Federal Research Grant, NSF 2112345, \$255,916, PI at University of Nevada “A DLT Machine Learning Platform for Blockchain Warehousing”
2020	Federal Research Grant, DOE DE-SC0020455, \$200,000, PI at University of Nevada “HPChain: Energy-Efficient Scalable Blockchains for HPC Systems”
2019	Best Paper Award, International Conference on Cloud Computing “BlockLite: Toward Accurate and Efficient Emulation of Public Blockchains in the Cloud”
2019	Industrial Research Grant, Amazon Web Services, \$30,000
2019	Industrial Research Grant, Google Cloud Platform, \$15,000
2018	Best Student Paper Award, IEEE International Conference on Cloud Computing “Toward Cost-Effective Memory Scaling in Clouds: Symbiosis of Virtual and Physical Memory”
2017	Industrial Research Grant, Microsoft Azure, \$20,000
2017	Industrial Research Grant, Amazon Web Services, \$10,000
2016	Postdoctoral Fellowship, Sloan Foundation, \$155,000
2007	Graduate Student Fellowship, Oak Ridge Institute for Science and Education, \$85,000

Selected Publications

Book chapters

- [1] **Dongfang Zhao**: Cross-Blockchain Transactions: Systems, Protocols, and Topological Theory. Handbook on Blockchain, Springer Optimization and its Applications. 2022.
- [2] **Dongfang Zhao**, Akash Mahakode, Sandip Lakshminarasiah, Ioan Raicu: High-Performance Storage Support for Scientific Big Data Applications on the Cloud. Resource Management for Big Data Platforms 2016: 147-170

Journals

([†]Student advised by **Dongfang Zhao**)
